GENERAL

It is a fact that only 6% of tech companies have female CEO. Katherine Regnier is proud to be one of them.

Katherine is the CEO and Founder of Coconut Software, the leading provider of appointment scheduling and lobby management solutions for financial institutions. The company was noted as one of the top 11 Companies in Tech to watch in Canada in 2020 and recently out of 800 applicants was accepted into the North American Google Accelerator.

The Coconut platform is a holistic solution that offers appointment scheduling and lobby management, tailored to tackle the challenges and pain points of banks and credit unions. A few notable customers include Arvest Bank, Morgan Stanley, First Horizon Canadian Tire, TELUS, and the Royal Bank of Canada.

Katherine started her company with a \$5K loan – the demand for Coconut’s solution grew and in fall of 2016, she decided it was time to raise money. Since then she has successfully raised over \$39.4M, has experienced 100% growth year over year for the past three years and is projecting to have 80 team members by the end of 2021.

MANIFESTO

Coconut is about People, Passion, and Performance. We refuse to accept mediocrity of our product, our performance, and the results we deliver. It’s not okay to say we can’t because it’s hard. We say yes, because it’s an opportunity to explore and innovate. We don’t make excuses. Together, as a team, we get it done and do it right.

PRODUCT DESCRIPTION

Capture your customers’ interest as soon as they take action. Coconut Software is the leading [appointment scheduling](#) and [lobby management](#) solution for financial institutions that want to improve the digital and physical engagement of their customers, members and staff. Our suite of cloud based solutions provide a way to seamlessly schedule, measure and manage customer, prospect and staff interactions so you can manage your workforce while improving engagement.

View our [Product Data Sheets](#)

[Appointment Scheduling](#)

Engage prospects and customers quickly through a streamlined appointment booking system. Allow customers to book time with staff when, where, and however it’s convenient for them. Reduce administrative tasks so that staff can focus on what really matters: building deeper relationships with customers.

[Lobby & Visitor Management](#)

Optimize branch efficiency and improve your customers’ experience through lobby and visitor management. Reduce friction in the lobby and lower wait times through a management software that fits in with your existing systems.

MISSION

To become the recognized leader in appointment scheduling and lobby management for banks and credit unions.

TESTIMONIAL

“Working with the Coconut team has been a fantastic experience. Not only does Coconut offer best-in-the-industry appointment software but they also have an incredibly passionate and dedicated team. Our implementation was a great success, a testament to both the software and the excellent team at Coconut.”

INDUSTRY PANEL DISCUSSION: EMBRACING A CUSTOMER-FIRST MINDSET

Banks and credit unions must bridge the gap between digital and physical channels and rethink traditional processes, in order to redefine Modern Banking.

Katherine Regnier

CEO & FOUNDER

Katherine was proudly born and raised in Saskatchewan. She has led the company through venture capital funding, strategic partnerships and rapid growth. Today, Coconut Software is trusted by large enterprises such as Arvest Bank, Morgan Stanley, First Horizon Canadian Tire, TELUS, and the Royal Bank of Canada.

In addition to running her business, she is passionate about giving back to Canada and wants to help pave the way for future entrepreneurs. As a strong advocate for women in tech, she regularly speaks at events sharing her experience and learnings with others.

ROMEO IULA
Chief of Product &
Technology

Romeo completed a Computer Science degree at the University of Saskatchewan and immediately joined the world of startups. He eventually moved on to become a senior developer at zu before joining Coconut Software as Katherine's second employee. Since then, he has since played a significant role driving the success and culture of the organization.
